EV Certificate Request (Standard Form)

This form assumes that different individuals will be acting as the Certificate Requester, Certificate Approver, and Contractor Signer. If a single person will be acting as such, please use the EV Certificate Request (short form) available through <https://www.sectigo.com/legal>.

When requesting the issuance of an Extended Validation (EV) Certificate, you must complete, sign, and submit an official EV Certificate Request form.

While an EV Certificate may only be issued for a single domain name, you may use this form to request more than one EV Certificate at one time by listing each domain for which you would like an EV Certificate issued. If you are requesting more than one EV Certificate using this EV Certificate Request form, then all required information must be consistent for each domain listed in order to successfully validate and issue your EV Certificates. If you are requesting the issuance of multiple EV Certificates but the required information relative to each domain name varies, then you must fill out a unique EV Certificate Request form for each domain name.

Please provide the following information related to your request for one or more EV Certificate(s):

Note: This document will be available in both downloadable form for physical signature and in electronic form for online submission with electronic signature where legally valid and enforceable.
